Piramal Museum of Art is seeking out to define 'That's Mumbai Cool' with a series of discussions on food, restaurants and cultural venues that have become the new pith of Mumbai's culture.

"The ability to distinguish great experiences, tastes and spaces is what separates the cool from the ordinary. All the people participating in the symposium are doing something new, and we will aim to decipher a shift in what is deemed cool in the city at the event," says Ashvin Rajagopalan, director of the Piramal Art Foundation.

Starting a little before noon, the day-long event kickstarts with a discussion among editors from cultural website, The Daily Pao — Pronoti Datta, Amit Gurbaxani and Purva Mehra — to decode how the city has started honing in on its contemporary culture in the past few years.
